| 5X1A   | 20x10-centimeter labels with two small red dots on them. Between two of such boxcars a flatcar, loaded with less important goods, must be inserted. *  Comment. This new method of transportation guarantees not only safety, but also effective camouflage, since such fuel shipments cannot be recognized from a distance nor will it always be possible to check the boxcars for their shipping labels. |  |  |  |
